

*Drawn by unknown artist based on sketches by Charles Francis Hall, public domain*

Look at the image above.

- Put a star on the world map where you think the homes are located.
- Why did the people in the image choose to build this type of home in this type of environment? How did they use the environment? How did the environment affect the way they lived?
- Think about the materials used, as well as the location of the homes. Give evidence to support your thinking about where the homes are located.
